-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 5-8 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 5-8 is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on ____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. ____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

Art Unit: 1713

DETAILED ACTION

1. This Office Action is in response to the Amendment filed July 7, 2005. Claims 1-4 were canceled and claims 5-8 have been added. Claims 5-8 are now pending.

Claim Rejections - 35 USC § 102/103

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 5-8 are rejected under 35 U.S.C. 102 (b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Dall'occo et al. (US 5,849,653).

Art Unit: 1713

A copolymer of ethylene and α -olefin (C_{4-20}) having		
A	melt flow rate (MFR)	1-100
B	melt tension at 190°C (MT)	
C	intrinsic viscosity ($[\eta]$)	
D	chain length A	
wherein $2 \times \text{MFR}^{-0.59} < \text{MT} < 20 \times \text{MFR}^{-0.59}$ $1.02 \times \text{MFR}^{-0.094} < [\eta] < 1.50 \times \text{MFR}^{-0.156}$ $3.30 < \log A < -0.0815 \times \log (\text{MFR}) + 4.05$		

(summary of claim 1)

Dall'occo et al. disclose a copolymer of ethylene and butene, obtained in the presence of hydrogen and a catalyst comprising (A) a bridged cyclopentadienyl compound of titanium, zirconium, or hafnium, (B) an organometallic aluminum compound of the formula of $\text{Al}(\text{CH}_2\text{-CR}^4\text{R}^5\text{R}^6)_w\text{R}^7_y\text{H}_z$, and (C) water, wherein the cyclopentadienyl compound is rac-ethylene-bis(indenyl)zirconium dichloride (abstract; Example 12). Dall'occo et al. further disclose that poly(ethylene-co-butene) has $[\eta]$ of 1.29 dl/g (Table 2). However, Dall'occo et al. are silent on the claimed properties. In view of that the catalyst is substantially identical to one used in the present invention to prepare the ethylene copolymer, the resulting ethylene polymer would possess the claimed properties. Since the PTO does not have proper means to conduct experiments, the burden of proof is now shifted to applicants to show otherwise. *In re Best*, 562 F.2d 1252, 195 USPQ 430 (CCPA 1977); *In re Fitzgerald*, 205 USPQ 594 (CCPA 1980).

Art Unit: 1713

5. Claims 5-8 are rejected under 35 U.S.C. 102 (b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Tsutsui et al. (US 5,374,700).

Tsutsui et al. disclose an ethylene copolymer comprising ethylene and α -olefin having 3 to 20 carbon atoms, the ethylene copolymer having MFR of 0.001-50 g /10 min (claim 1). Tsutsui et al. further disclose that the ethylene copolymer is obtained in the presence of a catalyst comprising (A) a transition metal compound having at least two ligands of cyclopentadienyl skeleton, which is bonded together through a (substituted) alkylene group, and (B) an organoaluminum oxy compound (col. 5, lines 15-60; col. 19, lines 19-68; col. 20, lines 1-48; col. 27, lines 43-52; Table 1). However, Tsutsui et al. are silent on the other specific properties other than MFR. In view of that the catalyst is substantially identical to the one used in the present invention to prepare the ethylene copolymer, the resulting ethylene polyme would possess the claimed properties. Since the PTO does not have proper means to conduct experiments, the burden of proof is now shifted to applicants to show otherwise. *In re Best*, 562 F.2d 1252, 195 USPQ 430 (CCPA 1977); *In re Fitzgerald*, 205 USPQ 594 (CCPA 1980).

Response to the Amendment

6. Applicant's Amendment filed on July 7, 2005 have been fully considered but they are not persuasive.

Applicants, "According to Comparative Example 5, a copolymer **did not satisfy the claimed properties**. The copolymer gives a film having a lot of fish eyes. The

Art Unit: 1713

copolymer gives a film having high haze. The film has insufficient appearance.

Applicants' Comparative Example 5 discloses **PMOA solution was used.**"

It is noted that the use of aluminoxane as a co-catalyst in the olefin polymerization will lead to a polymer with undesired properties. However, the Applicants fail to provide any experimental data to support that the polymers obtained according to the prior art (the use of aluminoxane) will result in a polymer having MFR, MT, $[\eta]$, and A not meeting the claimed equations.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

8. Any inquiry concerning this communication or earlier communications from the

Application/Control Number: 10/650,035
